The Catalog Raisonné on William Bouguereau concludes a 30-year effort on the part of a small determined group of scholars set to restore the fine realists of the second half of the 19th Century to their rightful place in art history after a century of misinformation. This two-volume set of glorious reproductions and voluminous biographical information on the artist and his times will do much to further this cause; indeed, now that the books are in hand, we intend to sponsor their inclusion in libraries and research facilities worldwide.

Art Renewal Center® funded all research for this biography and catalog raisonné and spared no expense of effort to produce these two outstanding volumes and show Bouguereau as he should be seen: one of the greatest artists in the history of western art. ARC Chairman, Fred Ross is co author and President of the Bouguereau Committee.
